### PROFESSIONAL BIOGRAPHY

I am an information technologist with over 30 years experience in application and web development. Over the past 12 years I have specialized in developing and supporting Drupal websites as a developer, themer, and site builder. I am proficient in leading an internal or external development team, liaising with contractors and managing client relationships.

### SKILLS

**Drupal** - Drupal Versions 6,7,8, Site Building, Responsive Theming, Module Development, Drupal Administration, Maintenance and Support, Pantheon

**Web Development** - PHP 5/7, TWIG, PHPTemplate, HTML, Javascript, jQuery, CSS, LESS, YML, Bootstrap

**Website Infrastructure Management** - Linux, Apache, MySQL, Varnish, Memcache, Apache SOLR, Bash, Pantheon, Linode

**Project Management** - Agile, Waterfall, Scrum, Training, Mentoring, Code Review, Performance Review, Full Project Lifecycle, Requirements Gathering, Use Cases, Build vs. Buy

**Legacy Technology** - Clipper, FoxPro, dBase, Harbour, xHarbour, xBase++, Delphi, Flagship

### DRUPAL EXPERIENCE

#### Self-Employed

##### *Freelance Drupal Developer*

2006 - PRESENT

- Design web strategies based on an evaluation of an organization's processes and needs.
- Architect and develop websites in Drupal versions 6, 7, and 8.
- Design, develop, and custom modules for Drupal 6, 7, and 8 in PHP5 and PHP7.
- Build custom themes for Drupal 6, 7, and 8, using PHPTemplate, Twig, HTML, CSS, LESS, jQuery and Javascript.
- Perform data migrations from Drupal 6 to 7, and Drupal 7 to 8.
- Upgrade custom Drupal Modules and Themes from Drupal 6 to 7 and Drupal 7 to 8.
- Liaise with designers, on-shore and off-shore developer and hosting partners.
- Perform periodic and security updates as they are issued on drupal.org.
- Migrate sites to Pantheon's Drupal cloud hosting service to improve performance.
- Assignments include: Pfizer, PBS, Mrs Dash, Bravo TV, Queens Library, and Guideposts Magazine.

## **The Markle Foundation**

### *In-house Contract Drupal Developer*

2014 - 2018

- Performed full stack web development for all Markle websites including markle.org, skillful.com and other temporary websites. Sites were built in Drupal 7 and Drupal 8.
- Rearchitected and converted markle.org from Drupal 6 to Drupal 7.
- Migrated site to Pantheon's Drupal cloud hosting service to improve performance and site reliability while reducing costs.
- Served as liaison between Markle and their design partner.
- Assisted Markle's communications team in developing and realizing a new content strategy to effectively communicate Markle's mission, programs and impact.
- Implemented SOLR Search allowing for faster and more flexible searching.
- Performed periodic security updates and maintenance tasks.
